## HOLIDAY FAVORITES

For centuries, artists have decorated fine pottery with a crackle finish. We used the same centuries-old techniques in creating our Holiday Favorites collection. To give each design its unique surface pattern, we applied a crackle glaze and fired the ornament a second time. No two are exactly alike. Details of each ornament are accented with color. Each is dated and carries the artist's initials.

All designs are dated and include a ribbon for hanging the ornament.
