Portraits in Bisque

Favorite holiday scenes inspired by the work of Norman Rockwell and artwork reminiscent of the Victorian age are captured in fine bisque porcelain. Only this velvety smooth porcelain — known for its ability to hold intricate details just as the artist sculpted them — would do for these nostalgic ornaments. Each ornament features sculpted, bas-relief designing on both sides and the year date.

The craft of wood carving has a long and rich tradition. For generations, artisans have created unique pieces of holiday folk art with little more than a chisel and their hands. Now we carry on that tradition with this collection of handsome Christmas ornaments. We cast each handcrafted design individually to remain true to every interesting angle and cut made by our artist. Each design carries the year date.

The magic and wonder of Christmas comes to life in the full-color artwork gracing the ornaments in this collection. In creating these ornaments, we embellished the artwork with gold, then carefully fired the art to fine porcelain. The styling of the entire collection is from fine works of art created over the centuries. Each ornament carries the year date and features a quotation on the back that will add to its meaning and enjoyment.
